**WRD-PRO6-2IN1-A275 WRD Pro6 System 2-in-1 Advanced Kit 275**

The PRO6 2-in-1 Advanced Kit 275 is BOTH Cutting Fibreline Removal System AND a Multi-Purpose Glass Panel Handling Kit. Use the Removal Suction Cup with a cordless drill or hand crank to cut the auto glass out, and the Anchor Suction Cup to anchor the other end of the cord. Reuse the two suction cups to lift windscreens into place. These cups are designed to take the Extended Arm and Double Hook attachments available in the WRD-PRO6-IS kit.

**KIT CONTENTS:**

★ WRD-PRO6-R Removal Glass Handling Cup ★ WRD-PRO6-A Anchor Glass Handling Cup ★ WRD-X-48 Spider Line X48 (48m) ★ WRD-P8-34 Spider Line P8 (34m) ★ WRD-HC Hand Crank 360 ★ WRD-AD2 Angle Driver ★ WRD-DP Dash Protector ★ WRD-T Cutting Line Threader ★ WRD-MP Pick Tool ★ WRD-BIT Bit Holder ★ WRD-IS Install Stick ★ 17" Tool Bag ★ Instruction Manual

**WRD-4RD 4" Companion Dock Kit**

The 4" Companion Dock Kit is designed for safe and efficient side glass panel extraction, using high tack 3M pads to temporarily fasten a winding point. Its unique design combines a centre pulling point together with an anchoring/feeding solution. This companion kit leverages components included in the Spider and Bat kits.

★ Compact - overall diameter of only 102 mm ★ Low profile - maximum height of only 50mm ★ Cordless drill operation ★ Reusable Dock

**KIT CONTENTS:**

★ Dock Base ★ WRD-RDH Removal Dock Spindle ★ WRD-RD3M-9 3M Adhesive Pads (9 Pc) ★ WRD-DPS Moulding Protectors (10 Pc) ★ WRD-BLG Long Hex Bit ★ WRD-BSM Short Hex Bit ★ Tool Case ★ Instruction Manual

**Equalizer Wire & Cord Removal Kits**

The Equalizer Viper is™ designed for small quarter glass removals and can also be used on windscreens and back glasses.

**FEATURES:**

★ Small, light, and easy to manoeuvre ★ Compact 135mm cup diameter on the Viper ★ One revolution cuts 76mm

**KIT CONTENTS:**

★ Viper Assembly including socket and ratchet ★ Clear Protect -A-Dash ★ T-Handle Wire Starter ★ Mini Anchor Cup ★ 22m Roll of Squire Wire ★ Packaged in a foam-lined case.

## Why a Cord & Wire Cut-Out Tool?

The auto glass in today's modern vehicles have tighter tolerances between the glass and the body. It is becoming quite impossible on

some vehicles to avoid damage to the pinchweld when removing the glass. Many technicians have started using cut-out wire or cord in an effort to save the pinchweld from possible damage. This will save valuable time in priming and

will prevent rust from forming on missed areas of damage.

Also, cord /wire removal tools reduce physical strain on technician's body compared to other removal tools.

## Viper / Raptor Spares

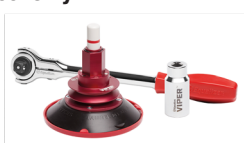

### F22 Equalizer® Raptor Wire Tool Only

Includes the Raptor suction cup, ratchet and 240V charger

### VT1136 Equalizer® Viper™ Tool Only

### MAC1125 Equalizer® Mini Wire Anchor Cup

## WRD-ISC WRD Install Stick Cut - Orange

The WRD Install Stick Cut features a safety blade in addition to its notched end and fish eye.

The notched end aids in guiding the cutting line under the glass panel  
The fish eye assists in guiding the cutting line under sealing lips and encapsulations.  
The safety blade makes quick and precise cuts in the fibre line, enhancing efficiency for technicians.
