

About Us

ALP OZ Auto Moulds began in May 2017 as a joint venture between Oz Auto Moulds and their long-standing rubber supplier, ALP Overseas. Oz Auto Moulds, an Australian family owned company, was formed in 2001 focusing on supplying universal moulds to the windscreen industry. ALP, a world class Rubber and Plastic manufacture, has provided sealing systems across the world since 1984. Their products are used by a wide range of industries which include automotive (including OEM parts to leading car brands), mass transportation, construction & building, packing, HVAC & R, and industrial sealings.

In April 2018 ALP OZ Auto Moulds incorporated BTB Auto Glass & Body Shop Tools into our business expanding our range in the Automotive sector. BTB, an Australian family owned company, supplied the Australian Auto Glass and Body Shop market with a unique range of quality hand and power tools, as well as their BTB manufactured flexible adhesive cutting tools and blades which are exported worldwide.

Now combined under the one Australian banner of ALP OZ Auto Moulds, Melbourne based Oz Auto Moulds incorporating the Bendigo based BTB Auto Glass & Body Shop Tools has over 60 years hands on professional experience in the Automotive industry. The joint venture between ALP and Oz, and the incorporation of BTB has seen us expand our range in Australia into the Industrial market and Automotive industry.

Together we look forward to supplying you a high level of products and services.

For more information on the ALP GROUP's global presence please see the inside back cover of this catalogue.

Industry Knowledge

With over 60 years hands on professional experience in the Auto Glass industry we are qualified industry experts providing training and technical support for the products we sell.

Extensive Product Range And Stock

Offering a comprehensive range of moulds, rubbers, specialised hand tools, power tools and accessory products, our warehouse carries over 2000 line items dedicated to Auto Glass specialists.

Prompt Service & Delivery

We pride ourselves on our high level of customer service and prompt response to all product enquires. We aim to send all orders out on a same day service if received by 3:00pm AEST.

To place orders please contact our customer service department on 03 9703 1522, fax orders to 03 9703 1514 or email orders to sales@alpoz.com.au.

New Products & Continuous Improvement

ALP OZ Auto Moulds continuously review our range, working with our partners on new products to improve both our business and our customers' businesses.

With the growing relationships internationally, we are regularly exposed to new technology, product improvements and new products. We have access to Australian and overseas facilities where we can design, test and create unique products to suit your business. Our sales team can work with you from beginning to end on your new product development projects.

Terms & Conditions

All product returns must be approved prior by ALP OZ Auto Moulds and be within 14 days from receipt of delivery. Incorrectly ordered product returns may be subject to a restocking fee. Returned goods shall be in their original and unmarked condition, complete with any instruction sheets supplied.

The following goods cannot be returned for credit under any conditions:

- Any goods specially made, including items cut to length
- Any goods used, altered or damaged by the purchaser
- Any goods having an invoice value of \$10 or less
- Any goods especially indented and which are not normal stock lines

All product returns must be freight prepaid by the sender.

All orders are to be prepaid unless trading terms are agreed prior by ALP OZ Auto Moulds.

Orders discrepancies must be reported to ALP OZ Auto Moulds within 3 days to ensure they are resolved ASAP.

The minimum order value before freight for non-account customers is \$50.

Any prices listed are for Trade Customers. Prices and availability are subject to change without notice.

The supply of items may vary from time to time from the actual images shown in this catalogue.

Any unauthorised copying, duplicating or transmitting of this publication or any part thereof is strictly prohibited unless prior consent is given in writing by ALP OZ Auto Moulds. Any infringement of copyright may be subject to legal liability.

ALP – Innovators in Polymer Technologies

Established in 1984, with the aim of giving its customers the best in polymer application sealing, ALP Group today is India's leading producer of automotive, industrial as well as consumer application sealing products. Spanning a diverse market comprising automotive, construction, consumer, railways, miscellaneous door and window applications and more, ALP's R&D Engineering Team develops innovative areas of sealing applications with rubber as its base product.

A pioneer in introducing EPDM weatherstrips in India, ALP has diversified into automotive applications, PVC thermoplastic and Santoprene products, insulation rubber sheets and tubs for HVAC & R applications. We offer expert and cost-effective services, right from indigenous compound formulation to production of the finished product.

THE ALP GROUP

INNOVATION

At ALP we have a culture of innovation where we encourage the free flow of ideas amongst our team of professionals. Our emphasis is on combining a scientific approach with engineering skills to create products of unmatched quality and exceptional service. Customer satisfaction being our focus and goal, we strive consistently for integration in technology.

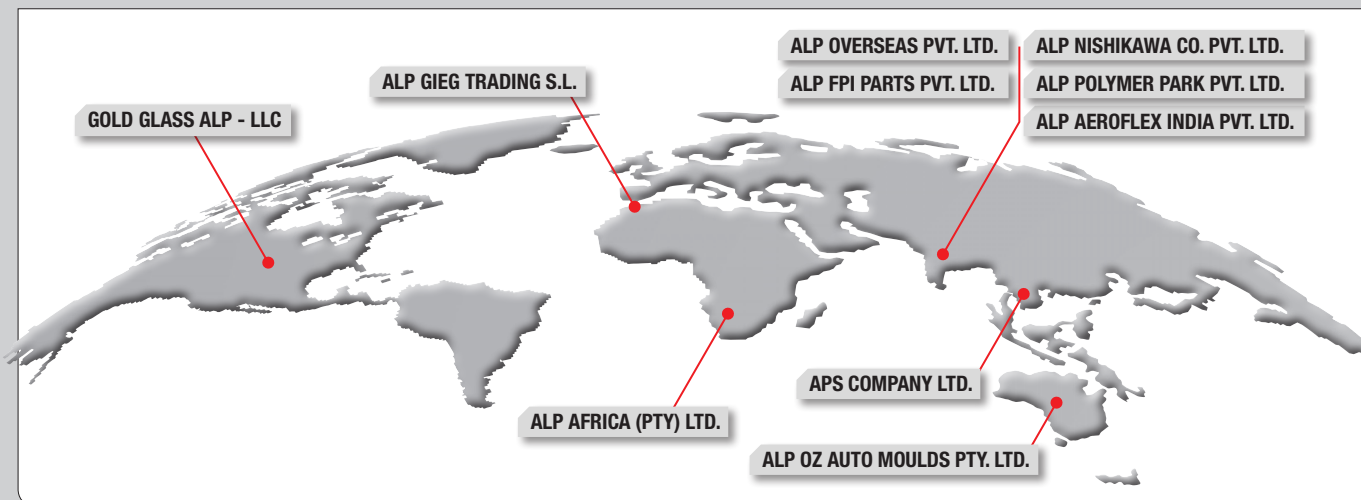

DESIGN & DEVELOPMENT

ALP's team of 25 highly qualified and dependable engineering design personnel are one of our most valued resources, making extensive use of their product development expertise of over 15 years. Equipped with advanced design software, like CATIA V5 and AUTOCAD, our design stations and professional team are geared to developing customized products in a short lead-time.

TESTING & EVALUATION

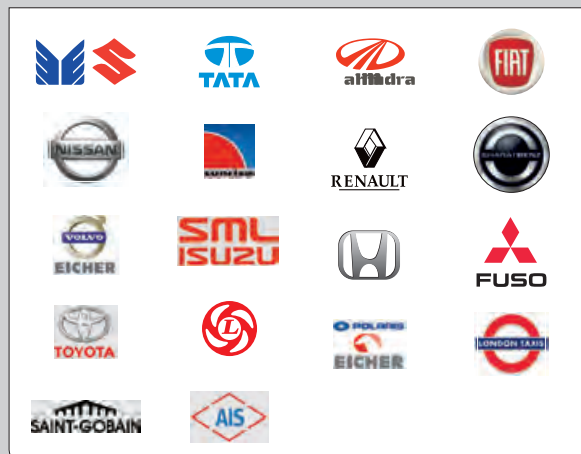

At ALP we ensure that our products undergo rigorous testing and evaluation. Advanced state-of-the-art equipment is used to ensure maximum utility and satisfaction for the customer. Our equipment can test for properties such as water absorption, material thickness, specific gravity, cracking, hardness, wear resistance, viscosity, melting temperature, thermal insulation, molecular composition and more.
